CDEMS Reports

Last Updated: 02/01/2010

The following tables list the reports currently available within the Chronic Disease Electronic Management System (CDEMS), as modified by the West Virginia University Office of Health Services Research. These lists are divided based on population level (aggregate) reports and patient level (intervention list) reports. Additional reports are regularly added to this standard list of reports based on user needs and feedback.

Population Level Reports

Population Level Reports
Adult Preventative Health Summary Report - Female
Adult Preventative Health Summary Report - Male
PEIA-CCP Clinical Process and Outcomes Measures
WVHII Clinical Process and Outcomes Measures
