Student Opportunities

PhRMA Foundation Health Outcomes - Pre Doctoral Fellowships - The aims of the Pre Doctoral Fellowships are (1) to provide stipend support to promising students during advanced stages of training and thesis research; and (2) to support the career development of scientists prepared to engage in health outcomes research. Health Outcomes research spans a broad spectrum of issues related to health-care delivery, from studies evaluating effectiveness of a pharmaceutical intervention, to the impact of reimbursement policies on outcomes of care. It also ranges from the development and use of tools to perform patient-based assessments to analyses of ways in which results of outcomes research are disseminated to providers or consumers to encourage behavior change. This program supports full-time, in-residence students who will have completed most of their pre-thesis requirements (at least two years of study) and be engaged in thesis research as Ph.D. candidates by the time the award is active.

Application Due Date: February 1, 2017. <http://www.phrmafoundation.org/2017-awards/pre-doctoral-fellowship-awards/health-outcomes/>
