Student Research Opportunities and Fellowships

Association of Public Health Laboratories (APHL) Infectious Diseases Laboratory Fellowship - The Fellowship Program sponsored by APHL and CDC, trains and prepares scientists for careers in public health laboratories and supports public health initiatives related to infectious disease research. The fellowship's mission is to provide a high quality training experience for the fellow while providing workforce capacity to the public health laboratory community. **Application Due Date: February 19, 2017.** <https://www.aphl.org/fellowships/Pages/Infectious-Diseases-Laboratory-Fellowship-Program.aspx>

Switzer Research Fellowships Program - The purpose of the Research Fellowships Program is to build research capacity by providing support to highly qualified individuals, including those who are individuals with disabilities, to conduct research on the rehabilitation of individuals with disabilities. Fellows must conduct original research in an area authorized by section 204 of the Rehabilitation Act of 1973, as amended. Section 204 authorizes research, demonstration projects, training, and related activities, the purposes of which are to develop methods, procedures, and rehabilitation technology that maximize the full inclusion and integration into society, employment, independent living, family support, and economic and social self-sufficiency of individuals with disabilities, especially individuals with the most severe disabilities, and to improve the effectiveness of services authorized under the Act.

Application Due Date: January 30, 2017.

EMF/SAEMF Medical Student Research Grant - The Emergency Medicine Foundation (EMF) and Society for Academic Emergency Medicine Foundation (SAEMF) jointly award stipends to encourage medical students to engage in and to be exposed to emergency medicine research. Emergency medicine research is broadly defined as scientific investigation designed to furnish new knowledge relating to emergency medical care. Such investigations may focus on basic science research, clinical research, preventive medicine, epidemiology, cost-containment, and research in emergency medicine teaching and education. **Application Due Date(s): January 16, 2017.**

Global Health Corps Fellows - The mission of the Corps is to mobilize a global community of emerging leaders to build the movement for health equity. The network of young change makers in this movement share a common belief: Health is a human right. The Corps recruits and selects highly qualified applicants with diverse skill sets to work with high-impact organizations in year-long paid positions. During their fellowship year, fellows make a significant and measurable contribution to the placement organization and the target population. **Application Due Date(s): January 18, 2017.**
