STUDENT RESEARCH OPPORTUNITIES AND FELLOWSHIPS

AAHD Frederick J. Krause Scholarship on Health and Disability - The scholarship is awarded annually to a deserving student with a disability who is pursuing undergraduate/graduate studies (must be at least enrolled as a Junior in college) in an accredited university who is pursuing studies related to the health and disability, to include, but not limited to public health, health promotion, disability studies, disability research, rehabilitation engineering, audiology, disability policy, special education and majors that will impact quality of life of persons with disabilities. **Application Due Date: November 15, 2017.**

International Society for Infectious Diseases Scientific Exchange Fellowship Program - The ISID Scientific Exchange Fellowship Program was established in 1992 to promote collaboration among researchers in different countries by enabling infectious disease researchers in the formative stage of their career to extend their research experience in institutions outside of their region. These awards are not restricted to physicians and are intended to support young scientists from developing countries in updating their knowledge of new, relevant laboratory techniques or in learning specific skills and techniques. Proposals that enhance the transfer of technologies to geographical areas where they are particularly needed will be favored. **Application Deadline: March 1, 2017.**

Parkersburg Area Community Foundation Scholarships - At the PACF, we believe that investing in our region's next generation is critical to the success of our community. The Foundation manages more than 135 scholarship funds that honor family or friends, celebrate retirements, memorialize loved ones, or ensure that donor values are passed from one generation to the next. Scholarship Funds have different eligibility requirements. Many awards are restricted to students graduating from certain high schools, pursuing particular fields of study or attending specific institutions. While most existing scholarships are limited to students who are graduating high school seniors, a few are available for students whose undergraduate degree program is already underway, who are pursuing graduate level education or who are "non-traditional" students. To be eligible for a scholarship from the PACF, a student generally has to reside in one of the counties in the Foundation's service area: Calhoun, Doddridge, Gilmer, Jackson, Mason, Pleasants, Ritchie, Roane, Wirt, and Wood Counties in West Virginia and Washington County, Ohio. **Application Due Date: March 1, 2017.** <http://www.pacfww.com/Receive/Scholarships>
