

WEEKLY FUNDING OPPORTUNITIES

[April 19, 2017](#)

Student Research Opportunities and Fellowships

Lasker Clinical Research Scholars Program (Si2/R00) - This FOA encourages applications for the Lasker Clinical Research Scholars Program for the purpose of supporting the research activities during the early stage careers of independent clinical researchers. The program offers the opportunity for a unique bridge between the NIH intramural and extramural research communities and contains two phases. In the first phase, Lasker scholars will receive appointments for up to 5-7 years as tenure-track investigators within the NIH Intramural Research Program with independent research budgets. In the second phase, successful scholars will receive up to 3 years of NIH support for their research at an extramural research facility; or, the scholar can be considered to remain as an investigator within the intramural program. **Application Due Date: August 25, 2017.** <https://grants.nih.gov/grants/guide/pa-files/PAR-17-254.html>

International: Fellowships - Doctoral Grants (Calmette & Yersin Programme) - Each year the Department of International Affairs allocates funding to promote and aid completion of doctoral theses in institutes of the Institut Pasteur International Network located outside mainland France. The research topic can be related to any theme developed in laboratories at International Network institutes, such as infectious diseases (infectious pathophysiology, immunology, microbiology, epidemiology, virology, parasitology), and public health activities (diagnosis, surveillance, resistance, etc.). Doctoral grants aim to promote mobility opportunities for individuals. The doctoral internship should be completed outside their home country or the country where they attended university. **Application Due Date: July 15, 2017.** <https://www.pasteur.fr/en/education/fellowships-and-mobility-aids/doctoral-grants-calmette-and-yersin>
