

Student Research Opportunities and Fellowships

Ruth L. Kirschstein National Research Service Awards (NRSA) for Individual Postdoctoral Fellows (Parent F32)

The purpose of the Kirschstein-NRSA postdoctoral fellowship is to enhance the research training of promising postdoctoral candidates who have the potential to become productive, independent investigators in scientific health-related research fields relevant to the missions of the participating NIH Institutes and Centers. **Application Due Date(s): Standard**

dates apply. <http://grants.nih.gov/grants/guide/pa-files/PA-16-307.html>

Ruth L. Kirschstein National Research Service Award (NRSA) Individual Predoctoral Fellowship (Parent F31)

The purpose of the Kirschstein-NRSA predoctoral fellowship (F31) award is to enable promising predoctoral students to obtain individualized, mentored research training from outstanding faculty sponsors while conducting dissertation research in scientific health-related fields relevant to the missions of the participating NIH Institutes and Centers. The proposed mentored research training must reflect the applicant's dissertation research project and is expected to clearly enhance the individual's potential to develop into a productive, independent research scientist. **Application Due Date(s): Standard**

dates apply. <https://grants.nih.gov/grants/guide/pa-files/PA-16-309.html>

Burroughs Wellcome Fund/ASTMH Postdoctoral Fellowship in Tropical Infectious

Diseases - Established in 1999, the Fellowship supports career development of physician-scientists focused on infectious diseases of low and low-middle income countries. This unique fellowship provides funding for individuals to conduct research in tropical infectious diseases (and, on occasion, other clinical conditions unique to tropical medicine). It is designed to stimulate or sustain interest in research in tropical infectious diseases by individuals who are planning academic career paths focused on clinical research in order to build a long-term academic presence for the ASTMH's field in the USA and Canada. **Application Due Date: July 19, 2017.** <http://www.astmh.org/awards-fellowships-medals/astmh-sponsored-fellowships>

Open Society Foundations Scholarship Programs: Civil Society Leadership

Awards (CSLA) - The awards provide fully-funded master's degree study to individuals who clearly demonstrate academic and professional excellence and a deep commitment to leading positive social change in their communities. The purpose of the Program is to directly assist future leaders in countries where civil society is challenged by a deficit of democratic practice in local governance and social development. Awards are available for study at various institutions across the world in the following areas: Communications & Media, Culture, History & Society, Development Studies, Economics, Education Management & Leadership, Environment & Natural Resource Management, Human Rights and/or Gender Studies, Law (including Human Rights law), Politics & International Studies, Public Health Policy & Health Management, Public Policy & Administration, and Social Work & Social Policy. The awards are available to citizens of the following countries: Afghanistan, Azerbaijan, Belarus, Cambodia, Democratic Republic of Congo, Egypt, Equatorial Guinea, Eritrea, Ethiopia, Laos, Libya, Myanmar/Burma, Republic of Congo, South Sudan, Sudan, Syria, Tajikistan, Turkmenistan and Uzbekistan. **Application Due Date: July 15, 2017.** <https://www.opensocietyfoundations.org/grants/civil-society-leadership-award-20160708>

Behavioral Interventions Scholars - The Administration for Children and Families (ACF), Office of Planning, Research, and Evaluation (OPRE) is soliciting applications for Behavioral Interventions Scholars grants to support dissertation research by advanced graduate students who are using behavioral science approaches to examine specific research questions of relevance to social service programs and policies. These grants are meant to build capacity in the research field to apply a behavioral lens to issues facing poor and vulnerable families in the United States, and to foster mentoring relationships between faculty members and high-quality doctoral students. **Application Due Date: July 3, 2017.** <https://www.grants.gov/web/grants/view-opportunity.html?oppld=284799>

T32 Training Program for Institutions That Promote Diversity (T32) - The purpose of this funding opportunity announcement (FOA) is to enhance the participation of individuals from diverse backgrounds underrepresented in cardiovascular, pulmonary,

hematologic and sleep disorders research across the career development continuum. The NHLBI's T32 Training Program for Institutions That Promote Diversity is a Ruth L. Kirschstein National Research Service Award Program intended to support training of predoctoral and health professional students and individuals in postdoctoral training institutions with an institutional mission focused on serving health disparity populations not well represented in scientific research, or institutions that have been identified by federal legislation as having an institutional mission focused on these populations, with the potential to develop meritorious training programs in cardiovascular, pulmonary, hematologic, and sleep disorders. The NHLBI's T32 Training Program for Institutions That Promote Diversity is designed to expand the capability for biomedical research by providing grant support to institutions that have developed successful programs that promote diversity and serve health disparity populations and that offer doctoral degrees in the health professions or in health-related sciences. These institutions are uniquely positioned to engage minority and other health disparity populations in research, translation, and implementation of research advances that impact health outcomes, as well as provide health care for these populations. The primary goals of the T32 Training Program for Institutions That Promote Diversity are to: (1) contribute to the expansion of the future pool of individuals from diverse backgrounds underrepresented in research areas of interest to the NHLBI, (2) enable trainees to increase their competitiveness for peer-review research funding, (3) strengthen publication records of trainees, and (4) foster institutional environments conducive to professional development in the biomedical sciences. Application Due Date: February 20, 2018. <https://grants.nih.gov/grants/guide/rfa-files/RFA-HL-16-007.html>
