

WEEKLY FUNDING OPPORTUNITIES

[July 19, 2017](#)

Below are this week's funding opportunities and announcements from the School of Public Health Offices of Research and Development. If any of the funding opportunities pique your interest, contact Director of Research Erica Bentley for sponsored projects or Director of Development Karen Galentine for private foundations and corporations.

Student Research Opportunities and Fellowships

SMSNA Scholars in Sexuality Research Grants Program (SMSNA Research Grant) - This unique program offers young investigators who are interested in sexuality research the opportunity to obtain funding to support their research while engaged in qualifying research in sexuality. It is the purpose of the SMSNA to increase public awareness of healthy sexuality and sexual problems, to foster the finest care for individuals suffering from sexual debility, and to encourage scholarship and research in human sexuality. It is the SMSNA's hope that this program will encourage young people to become interested in sexuality research and make it a focal point of their careers. Funding is available for graduate or medical students, residents in graduate medical education training programs, and post-doctoral/post-residency fellows. **Application Due Date: October 1, 2017.** <http://www.smsna.org/V1/grants>

Benjamin A. Gilman International Scholarship Program - This scholarship is a grant program that enables students of limited financial means to study or intern abroad, thereby gaining skills critical to our national security and economic competitiveness. The Program broadens the student population that studies and interns abroad by supporting undergraduates who might not otherwise participate due to financial constraints. The program aims to encourage students to study and intern in a diverse array of countries and world regions. The program also encourages students to study languages, especially critical need languages (those deemed important to national security and diplomacy). By supporting undergraduate students who have high financial need, the program has been successful in supporting students who have been historically underrepresented in education abroad, including but not limited to first-generation college students, students in STEM fields, ethnic minority students, students

with disabilities, students attending HBCUs or other minority-serving institutions, students attending community colleges, and students coming from U.S. states with less study abroad participation. The program seeks to assist students from a diverse range of public and private institutions from all 50 states, Washington, DC and Puerto Rico. **Application Due Date: October 3, 2017.** <https://www.iie.org/en/Programs/Gilman-Scholarship-Program>
